

AVIATION & AEROSPACE

Recommended Frames

701 Maverick

Modern wrap styling protects without the need for side shields. Anti-slip temples help to prevent slippage. Robust modern design. Plastic frame with no loose objects.

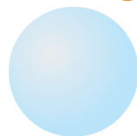

703 Ella

The Ella frame offers a plastic wrap frame, sleek design with short, anti-slip temples to keep the frame secure under helmets. Ensures excellent durability and strength.

Recommended Lens Coatings

BPI TINT BLUE: Improves object contours and colour perception, reduces glare.

BPI TINT RAYBAN G15: Transmits all colours evenly, reduces glares and brightens shadows.

IOAC's Certified Prescription Safety Eyewear provide clear, distortion free vision with superior quality optics.

Aviation workers face real challenges for eye and vision safety, from wiring electronics to testing, operating and servicing machinery. Our frames allow every worker to be protected from harmful airborne fragments and microparticles.

IOAC Optical have a specialised lens design specified for aviation workers, with potential to use upside down bi-focals, or Double D Segment lenses in special treatments.
