

FOOD PRODUCTION & PACKAGING

Recommended Frames

603 Panther

Modern wrap styling protects without the need for side shields. Anti-slip temples help to prevent slippage. Robust modern design. Plastic frame with no loose objects.

608 Vega

The Vega, plastic wrap frame with a sleek design, offering distortion free vision using digital free form technology adhered to your prescription.

Recommended Lens Coatings

BPI TINT YELLOW: Total acuity in vision.

BPI TINT BLUE: Improves object contours and colour perception, reduces glare and UV protection.

IOAC's Certified Prescription Safety Eyewear provide clear, distortion free vision with superior quality optics.

The food industry is a common environment where employees are moving through changing temperatures, where fogging is being caused. IOAC's optimum Anti-Fog Microfibre Cloth has a long-lasting solution to this issue, reducing the workflow time waste management.

Keeping both workers and food safe presents challenges for WHS officers, hence why IOAC is leading in this industry, with frames that have no loose objects and have superior protection against eye hazards including acids, liquids, diacetyl, spices and flavourings.
